

Rich Feel Finishes

Softpick SKI

FUNCTIONAL FINISHES

Increases pick up of finishing liquor during padding and exhaust processes
Exhaustion enhancer for polyester rich qualities and blends with cotton, viscose

Introduction

Softpick SKI is an innovative development to enhance exhaustion of finishing liquor.

Softpick SKI ensures maximum softness and maximum effects of finish onto the fabric.

Softpick SKI hence exhibits improved softness, smoothness from the finishing liquor.

Softpick SKI is an important additive for polyester rich qualities and blends with cotton, viscose and compact structured textiles/fibres which are difficult to exhaust.

Technical Specifications

Appearance : Whitish thin liquid

Ionic Nature : Ionic

PH of 10% solution in water : 6 – 6.5

Compatibility : Compatible with cationic softeners, silicones and resins.

Shelf Life : Six months at room temperature

Application

Padding Method :

An addition of 5 – 10 gpl to the padding liquor gives improved softness on the treated fabric.

Exhaust Method :

Softpick SKI : 0.5 – 1 % o.w.g

Packing 50 Kg and 100 Kg HDPE Carboys
